Armistice Day — But There Was No Peace
Chamberlain Has Put Away His Umbrella

About Armistice day many a cynical piece was written in recent years when the crumbling of the League of Nations and an epidemic of minor wars made it ghastly clear that America's Expeditionary Force went to Europe in 1917 on a futile mission. Webb Miller, famed United Press correspondent, summarizing our experience between two World wars, put it all in four words and called his book "I Found No Peace." But cynicism is too cheap to be tolerated for long, and these minor wars of the late '30s having merged into the world conflict of the '40s, we are face to face with grim reality.

Six Persons Are Hurt in Auto Crash

Ollie Robins, Hope, 5 Texarkanians, Are Badly Injured Saturday Night

Six persons were injured, three seriously, in a head-on automobile crash about two miles west of Hope on highway 67 late Saturday night. Poor visibility was blamed for the accident.

Ollie Robins of Hope was in a critical condition at Josephine hospital here, suffering from severe chest injuries. Other who were injured, all from Texarkana, are: Morris Adams, broken neck and fractured right leg; George Warner, rib injuries, lacerated hand and body bruises; W. E. Sherer, broken arm and scalp wound; Harold Keister, leg injury and Mrs. Morris Adams, sprained ankle.

The Texarkanians were treated at Josephine hospital here and later moved to that city. All, however, have been released from the hospital with the exception of Adams and Warner. The Texarkana men are connected with Camp Joseph T. Robinson in Little Rock and were enroute home for the week-end when the accident occurred. Robins is employed at Fulton and was enroute to Hope.

Several minor wrecks Hope police reported several minor traffic accidents over the week-end. Perhaps the most serious with the exception of the Robins-Texarkana men's accident, was when a car belonging to Leon Carrington, formerly of Hope, struck the buttment of the viaduct Saturday night damaging the car considerably. No one was hurt.

Sen. Pittman of Nevada Is Dead

Chairman Foreign Relations Committee Was 68

RENO, Nev.—(AP)—Senator Key Pittman, 68, chairman of the Senate Foreign Relations Committee, died at 12:35 a. m. Sunday. The veteran legislator, who might have entered the

Public opinion is on the same circuit with the cycle of war. The drums beat, the boys parade, the crowds cheer, and with tremendous enthusiasm we go marching off for something somewhere beyond the horizon. We feel very young. . . . Something is settled beyond the horizon, the war drums cease, the boys return, the country settles down to peace and jobs and debts—and pretty soon we note that Europe still isn't happy, we cynically say "We were suckers to get into it." And then we feel very old.

Phoney events are answered by phoney sentiment. But when the real thing comes along we are ourselves. Armistice Day is a memorial to America's action when phoney events turned into a real war.

And the phoney wars in Asia, Ethiopia and Spain having turned into a world conflict today we have quickly forgotten yesterday's cynicism. For with less than a generation gone the real thing has rolled around again.

Puzzled humanity experiences great events, views the past with regret, looks at the future with suspicion, and complains, "There is no answer."

And that is true. Consider the case of Neville Chamberlain, who died Saturday night at his farmhouse in England. He was a peace-loving man. He took his briefcase and his umbrella and went to see Hitler. The world and his own country ridiculed him. An umbrella became the symbol of "The Appeaser," shrouded with a faint disgust. War came on regardless. Chamberlain himself finally read the British empire's declaration to the world. But after a year of it he withdrew. Somehow the original libel, "Appeaser," had struck in England's craw, and England felt the war would get along better without Chamberlain.

He retired, ailing, to private life. And Saturday night he died. Today England mourns him. Phoney events have been swept away, and phoney sentiment with them; for the real thing has rolled around—and in her darkest days England remembers with admiration a leader who, a man of peace, was unafraid to work for peace, but who, when that was no longer possible, led his country out to war.

All the strange mixture that is humanity rises to the surface in the government of a democracy. . . . Now Neville Chamberlain stands there in death as a tribute to the dual nature of a truly great leader, as courageous in his fight for peace as he was resolute when the time came for war.

Wins Both Ways
CLEVELAND —(AP)—Nate Levitt bought a fistful of tickets to a busman's clam bake and in return the door prizes were purchased from his drug store. The first numbers drawn entitled Levitt to one of his own hot-water bottles.

The quota immigration law admits about 153,900 aliens annually.

Rumania Torn as Quake Hits, 2,000 Dead

German Troops Take Control in Effort to Restore Order

BUCHAREST —(AP)— Earthquakes without equal in the written history of Rumania ravaged the Nazi-controlled oil wealth of the kingdom Sunday and Monday, tore up a transport system, knocked down buildings and weighed profoundly in the unpredictable military future of southeastern Europe.

At least 1000 to 2000 were dead; the injured and homeless were uncounted and new shocks prolonged the terror and increased desolation.

Grey-clad soldiers of Germany, who have poured into Rumania for weeks for the purpose only known to Hitler, became in a few quivering seconds rescuers, fire-fighters and guardians of what order was left.

Oil fields were licked by flame, littered with splinters from their wooden derricks. Rails, bridges and roads were twisted and split apart.

More of Rumania laid in waste than would have been desolated in many months of war and reports reaching here told of damage also in Turkey, Bulgaria, Italy and of "catastrophic consequence" in Russia.

Thanksgiving 21st for FDR

But "the Obstinate Ones" Will Observe It 28th

WASHINGTON —(AP)— President Roosevelt over the weekend proclaimed Thursday, November 21 as Thanksgiving Day.

It was the second time he had set Thanksgiving a week earlier than the customary last Thursday in November, which this year is November 28. In 1939 he said it was done to assist merchants by providing a longer interval between the Thanksgiving and Christmas holidays.

Two-thirds of the states have signified they will observe the November 21 date this year. Governors of these 16 states have announced adherence to the traditional date—November 28: Arkansas, Connecticut, Florida, Kansas, Iowa, Massachusetts, Maine, Nevada, Oklahoma, New Hampshire, North Carolina, Rhode Island, Pennsylvania, South Dakota, Tennessee and Vermont.

'Tough Fight, Ma! But I Won'
LONGMONT, Colo.—(AP)—Big game hunters in Colorado are using carrier pigeons to carry home the news when they have made their kill.

Five hawks downed by noon, said a message attached to one bird found dead near a Longmont highway. "Cay Ray's folks." The message-carrying pigeon had struck an electric power line.

Current estimates of the earth's age made by scientists run at least 3,000,000,000 or 4,000,000,000 years.

Storms Hit 4 States, Damage Much Property

Two Hurt in Little Rock; Sharp Cold Follows the Rain

By the Associated Press
Storms swept parts of Mississippi, Louisiana, Tennessee and Arkansas Monday injuring nearly a score of persons and interrupting communications and damaging property.

At least two were hurt in Little Rock as high winds, accompanying electrical storm, knocked some homes from their foundations, blew down trees in many sections of the city and shattered plate glass windows in the downtown area. The disturbance extended to many sections of the state with considerable property damage indicated in initial surveys.

The University of Arkansas Experiment Station near Hope reported a low of 38 degrees at 7 o'clock Monday morning, and that 3.09 inches of rain fell over the week-end.

Fifteen persons were injured when the tornado struck along the Longwood and Leota sections in northwestern Mississippi near Greenville and leveled a score of dwellings.

At Crockett Mills, Tenn., Sheriff Billy Harper said he had reports of extensive property damage but had heard of no casualties.

A sharp drop in temperature followed the storms.

Sub-zero cold, high winds and snow and sleet spread over the Rocky Mountain and Plains states Monday. Twenty-one degrees below zero was reported at Lewistown, Mont., two and one-half feet of snow reported in Utah's Wasatch Mountains and 30 mile winds reported at Garden City, Kansas and a drenching rain at Dallas, Texas—are some of the weather highlights.

Man Found Badly Cut

C. E. Ray Suffering From Slashed Wrist Here

C. E. Ray, of Malvern was found in a serious condition by a maid in a room at the Snyder Hotel Sunday morning, suffering from the loss of blood caused by a badly slashed wrist. His wrist had apparently been cut with a razor blade. He was rushed to Julia Chester hospital here for treatment. Friends described his condition as improved Monday.

Ray, an employee of the L & A Railroad Co., arrived in Hope Saturday from Shreveport enroute to his home in Malvern. He had been stationed for a short time with the branch line of the railroad here, but for the past few days had been on vacation due to ill health.

Supreme Court Changes Ruling

Rural Electric Corp. Must Pay Sales Tax

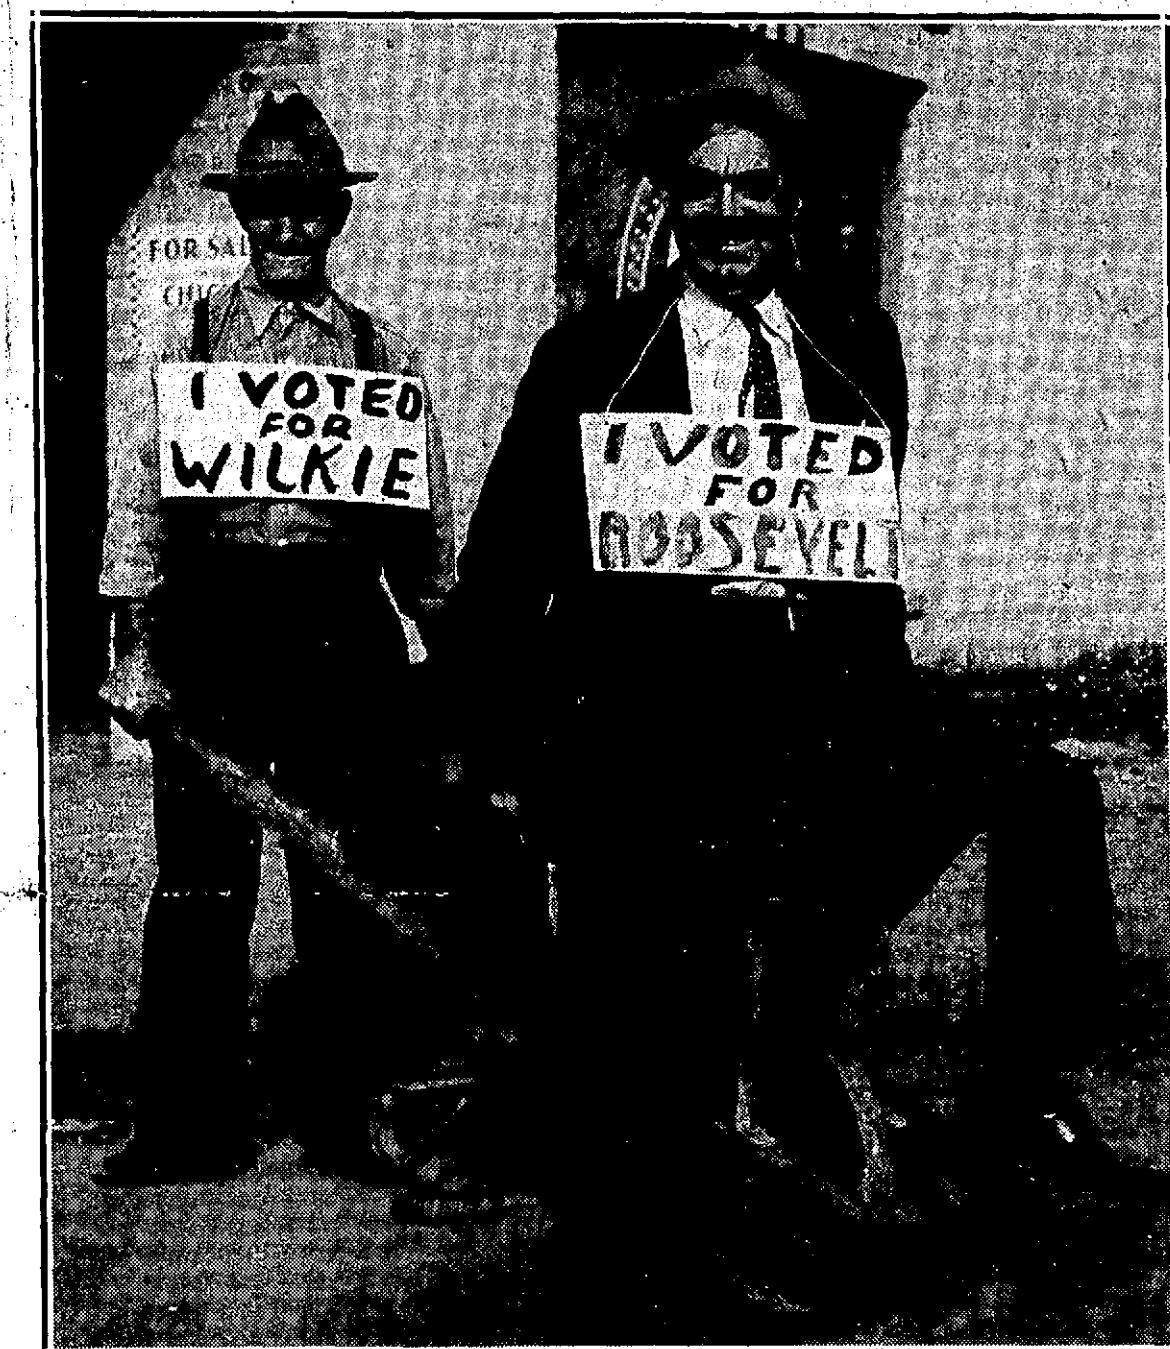

LITTLE ROCK —(AP)— The supreme court held Monday that members of Rural Electric Cooperatives in Arkansas would be required to pay the state two per cent sales tax on the electric energy purchased from co-operative corporations.

The ruling reversed and remanded a Pulaski Chancery court order restraining Revenue Commissioner McCarrall from collecting sales tax from the Oarks Rural Electric Cooperative Corporation of Fayetteville.

A Thought

It is a great happiness to be praised by them who are most praiseworthy.—Sir P. Sidney.

Voters Having Settled This Bet Two Hope Men Are Wheeling Along...

During the presidential campaign J. A. (Lon) McLarty, local used furniture dealer, and J. H. Dougan, gunsmith, had an argument (as who didn't?). McLarty bet Dougan that Roosevelt would beat Wilkie, the losing bettor to push the winner around Hope in a wheelbarrow.

Well, the United States counted votes November 5—and Mr. Dougan lost. So on Thursday, November 7, Mr. Dougan and Mr. McLarty set out on their own private street parade of Hope, McLarty riding in the wheelbarrow and Dougan on the business end of it.

Mr. McLarty, grinning, and Mr. Dougan, somewhat out of breath, stopped in front of The Star office for this picture.

A crowd gathered. Traffic stopped. Hecklers sprang up. Apparently the betters had some friends present to make remarks. One friend (Dr. C. P. Zimmerly, veterinarian) made this remark:

"Just tell 'em in the paper that the city fined old man Dougan \$10 for hauling junk."

But that didn't bother McLarty. He just said, "Giddap!"—and the wheelbarrow rolled along . . .

Memorial Day Is Observed

President Makes Prediction at Soldier's Tomb

By the Associated Press
At the tomb of the unknown soldier in Arlington Cemetery, overlooking the nation's capital, President Roosevelt solemnly predicted Monday that peoples which have been brought under the "iron heels" of dictators would not "revert to modern form of ancient slavery," but "will, themselves rebel."

Gang Butsers

SPARTANBURG, S. C.—(AP)—Police call of the week: "Calling Car No. 2. Calling Car No. 2. A pack of dogs on — street is keeping the neighbors awake. Find them and get the ringleader. That is all."

The best musk for perfumes comes from the musk deer of Tibet.

Missionary to Speak Here

Famed Preacher to Talk at Gospel Tabernacle

The Rev. J. Roswell Flower, Springfield, Mo., General Secretary of the Assemblies of God, will show moving pictures of his missionary tour into Africa two years ago, at the Hope Gospel Tabernacle Monday night, beginning at 7:30.

Despite inclement weather large crowds heard Mr. Flower at both the morning and evening service at the Tabernacle Sunday. Monday night's service will be the final meeting in this series of services.

The Rev. Flower has served in various offices in his denomination. He was the first Missionary Secretary from 1910 to 1925. The Missions department now operates on policies set up by Mr. Flower, and has grown in 20 years from just a handful of missionaries.

Crack Forces Annihilated by Greeks

Italians Have Lost Battle in All Sectors, Greeks Say

ATHENS —(AP)— Italian invaders of Greece "have lost the battle in all sectors and are retreating in disorder toward Albania," the Greek radio declared Monday.

Thus the radio summarized a series of Greek successes which it said had been won in 15 days of bitter warfare despite superiority of the Italian forces.

Italy's Alpine Centaur Division—trained for a year in Albania for a lightning attack through the mountains—was said by the high command to have suffered a crushing defeat.

Large units of the division were annihilated, it said. The radio said the Italians flung down their arms and fled when Greece's mountain troops charged them with bayonets and hand grenades.

British to Strike
LONDON —(AP)— Britain will strike at the Axis forces in the near east at the earliest possible moment and is reinforcing her army there with every man, gun, tank and plane that can be spared from the defense of this country, high British sources asserted Monday.

Anticipating the near east to develop into a major theater war this winter, the sources said, Britain must hasten re-inforcements in preparation for the "fierce protracted struggle." It added that Egypt must be held at "all costs" because of its vital strategic position.

Lumber Yard Is Remodeled

Hope Retail Yard Construct New Building

J. M. Harbin, general manager of the Hope Retail Lumber Yard, announced Monday that a \$2,000 remodeling and building project has been completed and the yard is now restocked and open for business.

Construction of the new building began April 1 and many new and improved features have been added. One outstanding improvement is a new electrically equipped shop which greatly aids carpenters and contractors.

"The Hope Retail Lumber Yard has been doing business in Hope for the past 22 years. The firm is home owned and operated with Mr. Harbin as active manager and Mrs. Harbin as bookkeeper. Inspection is invited.

African natives treasure a small stone which they apply to snakebites in the belief it sucks out the poison.

New Symbol of National Unity

A group of New Yorkers has organized a "Good Loser Club," composed of Roosevelt and Wilkie partisans, and dedicated to national unity behind the successful candidate. The club is distributing the poster pictured above, hoping the idea will spread to other communities so that Americans, bitterly divided over the recent election, will close ranks and present a united front to the world.

CRANIUM CRACKERS

Tools of the Trade
Here are five questions about tools and instruments used in various pursuits. How many can you answer correctly?

1. A transit is most likely to be used by (a) musician; (b) golfer; (c) metallurgist; (d) surveyor.
2. A sextant is a device used in (a) navigation; (b) medicine; (c) fire fighting; (d) barbering.
3. A pestle is usually used by (a) lawyer; (b) farmer; (c) pharmacist; (d) movie director.
4. A comptometer is most likely to be used by (a) chemist; (b) mathematician; (c) accountant; (d) army officer.
5. A slide rule is most frequently used in (a) journalism; (b) engineering; (c) trombone playing; (d) carpentry.

**Farm Bureau Is
Year-Round Job**
Every Member
Should Invite
Neighbors to Join

Membership in the Farm Bureau, just like it is in the church, or any kind of an organization, is a year-round proposition. Family memberships are generally solicited during the winter of the year when farm leaders have a bit more time than ordinarily.
How is membership obtained? By farmers who are sold on the merits of Farm Bureau, seeing other farmers and inviting them to join the organization then and there. Maybe you are the leader that can sell Farm Bureau to some farm family. Let's not let it be said by anybody "I didn't join—I wasn't asked."
One report shows that 82 per cent of the families solicited joined the Farm Bureau on the spot. Why? They were asked to join. It will happen in your neighborhood or community if you want it to happen bad enough to spend a little time at the job.

**Farm Bureau's
Board Now 25**
Increased to
Represent All
Parts of County

There is more interest in Hempstead county in Farm Bureau by farm leaders than in recent months. The Board of Directors have been increased from 12 to 25 members so that every community of farm folks would be represented. Three women have been added to the Board as Farm Bureau, like farming, is a family affair.
Each member of the Board of Directors will lead the present membership drive in his immediate community. Each will have his friends and neighbors assist in doing the big job to be done for the good of all.
It is the duty of every farmer and his wife who are interested in the better things of life to see their friends and neighbors about Farm Bureau, inform them about Farm Bureau, and insist that they affiliate with the organization and contribute to the growth of organized effort of farmers. Fall into the spirit of the theory that a lot of farmers should do a little work instead of a few doing a lot of work.

BARBS
You can't convince certain small country towns that Germany isn't the ruler of the world.
Dentists recently flocked to Cleveland from all over U. S. for a convention. It didn't hurt a bit.
If all the autos were placed end to end, it would be Sunday.

Kangaroos are rapidly decreasing in Australia, but American pedestrians still have the jump on them.
If you're not satisfied with your lot, here's a tip: It's mum planting season.
Lots of persons are driving an old car because they don't owe for a new one.
Cleveland convention of 17,000 teachers was thoroughly enjoyed by the school kids who had a day off.
U. S. has two-thirds of the world's phones. Does that explain why women talk so much?
Aviation official claims army's new Bell Airacobra plane is faster than a bullet. My gosh, a gunner might shoot himself.

It's Catching
CLEVELAND —(AP)—William Jenks and Marion Eberling, who helped issue marriage licenses in probate court here, were unexpectedly absent recently. The other 96 court employees learned they had wed.

**The United States
Goes to College**
Did you vote for Franklin D. Roosevelt or Wendell Willkie for President on Tuesday, Nov. 5?
Pardon us, but you didn't.
You voted for electors, who you hope and expect will vote in the electoral college for the candidate of your choice. That is the unique college, to which all the United States goes, once every four years, to find out whom it has elected its President.
These electors, for whom you really voted, will meet and THEY will vote for the presidential candidates. The result of their vote will be forwarded to Washington, there tabulated with similar votes in other states, and the result is the official election of a President.
A long way around to achieve a result everybody knows about anyway? Perhaps. Some people think it ought to be eliminated as a useless snarl of red tape, to say nothing of the possibility that the electors just might possibly get together and vote for somebody you didn't intend them to vote for at all.
It all started when the country was young, and had fewer than 4,000,000 people, most of whom were not allowed to vote. Even this restricted suffrage was not trusted. It was felt that the voters ought to delegate the right to choose a President to a select group of respected citizens. These would be chosen by the voters for their standing and judgment; and they, in their wisdom, would choose anybody they thought best for President.
Their number, too, equal to each state to the number of senators and representatives, guaranteed minimum representation in each state as such, no matter how small.
But after this college had twice elected Washington, parties sprang up, and the idea became more and more firmly entrenched that the electors were to be pledged in advance to vote for a specific candidate, thus reducing them from a choice-making body to a mere transmission belt for a choice made by the voters themselves.
Thus we're reminded every four years of two things: first, that our government is more democratic today than when it was first set up, and second, that it is a federal union of sovereign states, and that our presidents are chosen by the vote of the people of the states as such, and not directly by the mass of all the people.
This sometimes produces the phenomenon of a President getting the required number of electoral college votes and being elected, while actually having a majority of the popular vote. That is because he may have great majorities in the states he carries, while losing others by only a few votes. This occasionally creates some bad feeling, yet it is hard to see that such feeling would be any less if a candidate turned up with a majority of 10 votes out of 30,000,000 cast.
This odd and atavistic "college" has been functioning for 152 years and bids fair to turn out many another "graduate."

Chamberlain, Appeaser, Dies
All England Mourns Death of Her Late Leader
ODHAM, England —(AP)—Neville Chamberlain, 71, who dedicated himself to peace but made war when there was no other way, is dead. His strength spent by years of struggle, first to save Europe's peace and then as leader of Britain in the first months of this war, the former prime minister died Saturday night in his peaceful countryside home.
Weakened by months of illness Chamberlain had fallen into a coma before death came at 5:30 p. m. Britain, mourning only Sunday of his death, was deeply grieved. Weeping women gathered before many news signboards and solemn men remembered the man who once held out to them a promise of "peace in our time."
For several days Chamberlain had lain gravely ill in his country home, Heckfield House, near his Hampshire town, and had been so deeply in coma that he probably never knew King George VI and Queen Elizabeth spent an hour at his bedside during the week.
With him when he died were his wife and two sisters.
His rambling, two-story home, standing behind a grove of tall larches, had been camouflaged to hide it from German planes. Yet recently, seven bombs dropped close to it, at least one 40 yards away.
Chamberlain's final illness began last August, after he had been succeeded as prime minister by Winston Churchill but while he still remained as lord president of the council in Churchill's inner cabinet. He underwent an abdominal operation and, although he returned briefly to his duties, his health was broken and his resignation last month was expected.

All England Mourns Death of Her Late Leader
ODHAM, England —(AP)—Neville Chamberlain, 71, who dedicated himself to peace but made war when there was no other way, is dead. His strength spent by years of struggle, first to save Europe's peace and then as leader of Britain in the first months of this war, the former prime minister died Saturday night in his peaceful countryside home.
Weakened by months of illness Chamberlain had fallen into a coma before death came at 5:30 p. m. Britain, mourning only Sunday of his death, was deeply grieved. Weeping women gathered before many news signboards and solemn men remembered the man who once held out to them a promise of "peace in our time."
For several days Chamberlain had lain gravely ill in his country home, Heckfield House, near his Hampshire town, and had been so deeply in coma that he probably never knew King George VI and Queen Elizabeth spent an hour at his bedside during the week.
With him when he died were his wife and two sisters.
His rambling, two-story home, standing behind a grove of tall larches, had been camouflaged to hide it from German planes. Yet recently, seven bombs dropped close to it, at least one 40 yards away.
Chamberlain's final illness began last August, after he had been succeeded as prime minister by Winston Churchill but while he still remained as lord president of the council in Churchill's inner cabinet. He underwent an abdominal operation and, although he returned briefly to his duties, his health was broken and his resignation last month was expected.

Personal Mention

Mr. and Mrs. Robert LaGrone have returned from a pleasant weekend trip to Fayetteville, where they attended the Homecoming festivities at the University of Arkansas.

James Hithin of Little Rock is spending the Armistice Day weekend with his parents, Mr. and Mrs. J. H. Harbin.

Mr. and Mrs. William McCantney, returning to Texarkana from their honeymoon, spent Saturday evening with J. D. Barlow at his home, 304 N. Pine Street. This wedding is of interest throughout the Southwest as both parties are prominent in social and business circles. Mrs. McCantney, who was Mrs. Mable Williams, is the member of an old Arkansas family and is a sister of the late H. C. Crutchfield and the mother of Randy and J. B. Williams, formerly connected with the Barlow in Hope. Mr. McCantney is the owner and manager of a well-known Texarkana hotel.

Mr. and Mrs. P. D. Burton Jr., of Lewisville were Sunday visitors in the city.

Mrs. Basil York and Miss Nancy Hill will motor to Little Rock Monday night to attend the concert by Junette McDonald in the Robinson Memorial auditorium.

Mr. and Mrs. Ben Turner and Mr. and Mrs. Gerald Albright and little daughter, Beverly, of Paragould are the guests of Mr. Turner's mother, Mrs. Florence Turner, and his sister, Mrs. J. M. Harbin, and Mr. Harbin.

Mr. and Mrs. Don Ligon, nee Frances Reed left Monday for Shreveport after a visit with her parents, Mr. and Mrs. Sid Reed.

Mr. and Mrs. Syd McMath had as Sunday dinner guests at the Barlow Mr. and Mrs. John H. Green of Little Rock, Mrs. Alice McMath, Mrs. Johnnie McCabe, and Master Syd McMath.

Miss Miriam Porter returned to Magnolia A. & M. college Sunday after a visit with her parents, Mr. and Mrs. F. N. Porter, and other relatives and friends.

Mr. and Mrs. Bob Elmore and son Bob and daughter, Miss Montez Elmore of Ouachita, spent Sunday with Mrs. Elmore's parents, Mr. and Mrs. W. B. Port, in Little Rock. During their stay there Bob was the honor guest at a birthday dinner.

Mr. and Mrs. George Brandon of El Dorado were Sunday visitors in the city.

Miss Betty Reed of Fayetteville is the house guest of her sister, Mrs. J. W. Jones, and Mr. Jones.

Mr. and Mrs. Hugh Smith of St. Louis, Mo. are guests at the Barlow this week.

Dorsey Ray Fuller left Sunday to

SERIAL STORY

BY W. H. PEARS

YESTERDAY: Bill takes Dot to the dance and with the help of Helen, he is able to get her to go. He is now in a position to get her to go to the dance.

CHAPTER VII

WHEN Bill left the house next morning he had every intention of dropping Buck's letter into the first mailbox. But before he could do so, Drowsy Peters moped up beside him.

"How's the great lover?" "Don't kid, Bill begged. "I'm too low to take it."

"Me, too," Drowsy said. "I saw Helen last night."

"How is she?" "Lousy. She'd been crying. You know, Bill, I feel like a heel. I got you to go after Dot. Now I wish I'd shut up. Can she really help Buck?"

"I've got to risk it," Bill said. "It's our only chance."

Drowsy shrugged. "I hope she ain't just stringing you along, kid."

BILL thought about this remark all during classes. At noon he managed to see Dot for a moment and she agreed to meet him after work.

When Bill arrived for work, Julius Peskin was waiting at the door to pounce on him.

"You've got a nerve, Mentor," he shrieked. "Coming here after the way you brutally assaulted Walton!"

Bill saw that it was useless to try to explain. "That needn't affect my job here, Mr. Peskin. I'll work harder than ever if you'll let me stay."

"Should have thought of that before you struck Walton," Peskin snapped. "You can finish the week out, Mentor, while I get a new boy. Now get busy polishing that dirty fountain."

The fountain was not dirty, but Bill polished vigorously. His first thought was that maybe Dot would explain to Peskin. But, like Drowsy, he was beginning to wonder about her powers. Suppose she was just stringing him along?

But Dot shied away from a direct commitment and turned on the tears.

"Bill, how can you doubt me so? Didn't I have Landis fired? Haven't I been talking to Father all day about Buck Mentor?"

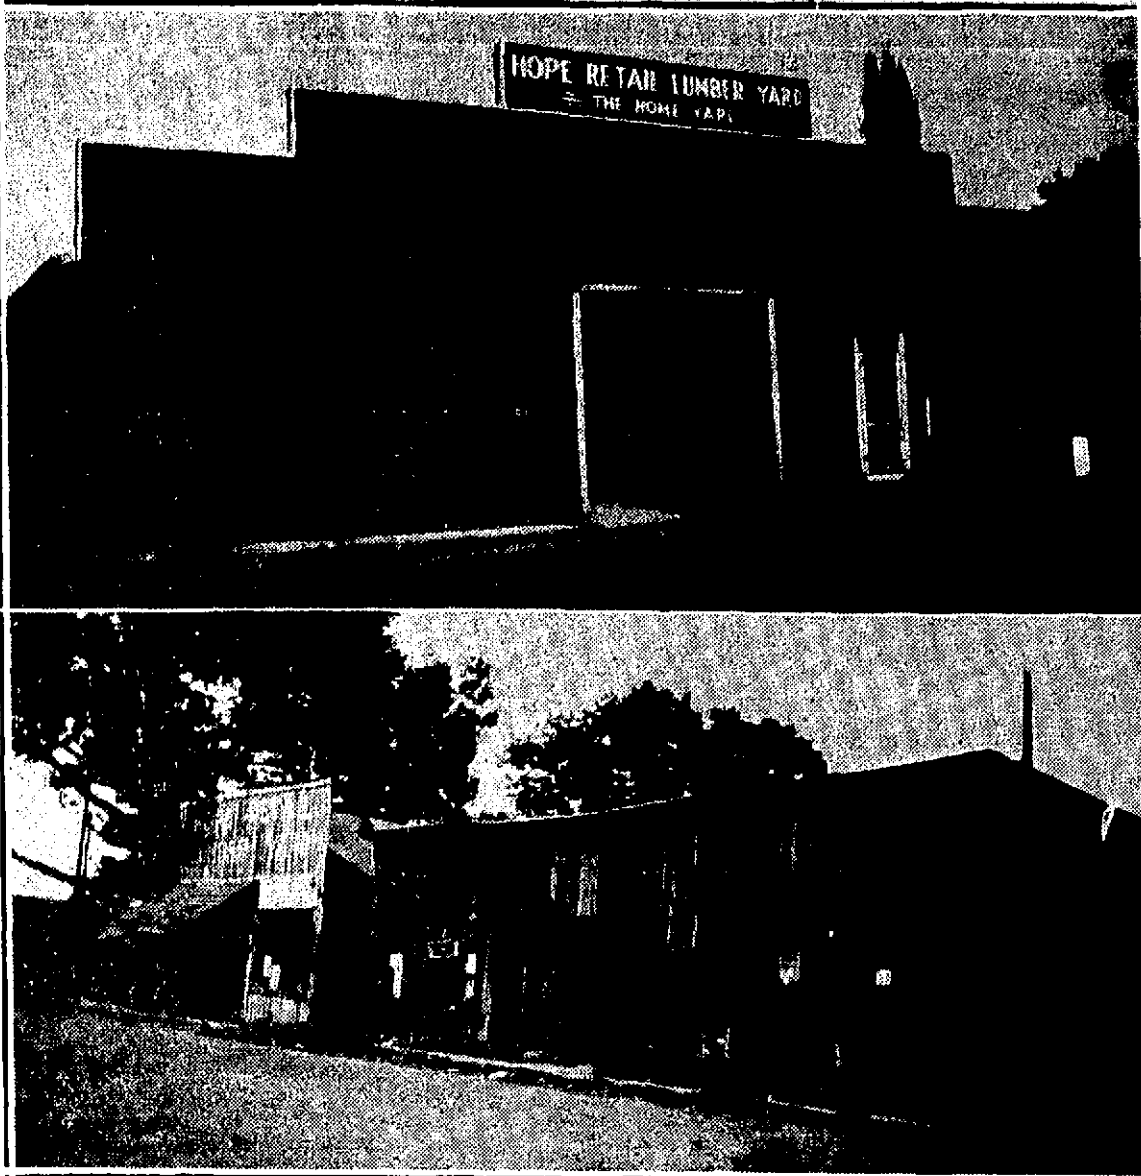

"What did your father say when you talked to him?" Bill asked.

"Why—why, he said he thought Buck Mentor was a good coach."

"Did he say he'd give Buck a chance?"

Dot hesitated. She was undisputed queen of West High. During her reign only one boy had ever

Spring Hill to Hold Program

Amateurs From all Over County to Take Part

Spring Hill High School is to present its second amateur program Thursday night, November 21 at 7:30 p. m. in the high school auditorium. The last amateur program proved to be a most successful means of entertainment in the Spring Hill community. The sponsors of this program, the "Senior Class" of Spring Hill, hope and believe that this will be even a more successful program than the last.

Talent from all over Hempstead County, and Southwest Arkansas is expected to appear on the program. Anyone who wishes to participate in this entertainment is urged by the sponsor to let it be known. There will be prizes offered to the four outstanding numbers on the program. The winners will be selected by a group of judges.

The sponsors are doing their best to provide entertainment that everyone will enjoy.

The public is invited to come and

Rookies Will Get Dose of Drilling During 13 Weeks

One of a series taking a drattee into Uncle Sam's new army.

By MILTON BRONNER
NEA Service Staff Correspondent
WASHINGTON — Assume that John Q. Citizen, drafted under the Selective Service Act, has been assigned for training in the infantry. After all, that is still the largest component of the American army.

The War Department at first thought of filtering all draftees, regardless of the branch of the service selected for them, into the regular army or national guard units. They were to learn as much as possible by watching and imitating the already trained men in their platoons.

It was finally decided, however, to segregate the draftees and give them 13 weeks of the most intensive training. There will be no play about this. The slogan has been handed down: "The maximum of progress in the minimum of time."

This has been softened to some extent by a reminder from General Marshall, chief of staff, that officers are to remember, first and foremost, that draftees are American citizens and that not only the success of the draft, but the future feeling toward the army, will depend upon how wisely the men are handled.

John Q. Citizen may have heard from his father, who was a draftee in the World War, all about the great amount of hard slogging drill he was put through as an infantryman. John and his fellow draftees will get plenty of that too, but in greatly simplified form. A lot of the fancy stuff has

John Q. won't have to learn much of the fancy drill routine that confused World War soldiers.

Drill is necessary, of course, for exercise, for discipline and for teamwork. The men will dig trenches and do the other essential jobs. They will be taken on route marches and thus gradually hardened, until at last they can take 20 miles a day in stride and carry a pack weighing slightly over 54 pounds.

NEXT—The infantry's job.

Sen. Pittman of

(Continued on Page Four)

senate six years earlier but for his high regard for a gentlemen's agreement, suffered a heart attack early Saturday.

Although Senator Pittman was not in vigorous health when he came home to campaign successfully for re-election, it was not until Saturday, when he failed to appear at a political rally here, that his illness became known publicly. Monday night he was taken to the hospital and his physician, Dr. A. J. Hood, disclosed he had been in bad health throughout the campaign.

Senator Pittman, first elected to the Senate in 1912 for an unexpired term of four years, defeated Samuel Platt, Republican, Tuesday—his sixth successive victory for that office.

Gov. E. P. Carville, expressing regret at the senator's death said he had made "no commitments and will take no action" in naming a successor until after funeral services Thursday. Pittman's unexpired term ends in January.

Cocos Island, prominently mentioned as a prospective United States naval base, is the legendary location of a large pirate treasure.

New Draft Is More Liberal

Religious Sects Opening Office in Washington

By BRUCE CATTON
NEA Service Staff Correspondent
WASHINGTON — Although stiffer than the World War law in most ways, the present selective service act takes a far more liberal and intelligent attitude toward conscientious objectors for which reason the whole question is likely to be much less of a problem than in 1917.

The World War draft law hardly admitted there could be such a thing as a conscientious objector. A rational policy for dealing with objectors was not worked out until the war was nearly over. Hard treatment was the rule. 17 objectors were sentenced to be shot (although all these sentences were commuted) and 503 were sentenced to prison. Many of those in prison were given extremely brutal treatment.

Today things seem certain to go much more smoothly. Out of the 17,000,000 men obliged to register, authorities so far have listed only 32 cases of objectors who refused to fill out their cards.

Special Form Prepared
This is largely because the problem was recognized in advance.

While the draft act was before congress the whole question was carefully studied. Both War Department and congress freely admitted that while they might not agree with the stand of the objector, they were going to have to deal with him and might as well work out a common sense way of doing it. Accordingly, an elaborate program was set up.

A special form supplementary to the general selective service questionnaire has been prepared. Designed to permit filing of information pertinent to the conscientious objector's claim for exemption, it must be filled out and submitted along with the general form when a prospective conscript's number is called.

It inquires into the objector's religious training and beliefs, his general background, his participation in church and other activities. References qualified to testify as to the objector's sincerity are asked.

The conscientious objector never comes before a military tribunal. If called up, he states his case to his local draft board, which has authority to assign him to non-combatant duty in the army or to some form of war work in civil life.

He has the right of appeal from his board's decision, and may get a hearing before the Department of Justice—which has set up a special unit under Linton N. Collins, special assistant to the attorney general, to handle all such cases. If in the end his plea is overruled and he simply refuses to serve, he gets tried by a civil court.

Churches Set Up Office
Meanwhile, the three religious denominations whose tenets most strongly oppose the taking of human life—the Quakers, the Mennonites and the Brethren—have opened an office here in charge of Paul Comly French, former Philadelphia newspaperman, to see that the conscientious objector gets a fair break. Far from opposing this, the War Department is co-operating and has assigned a staff officer to work with French.

French is by no means out to promote objection to the draft. He sees his principal job as explaining to all objectors just what the law's provisions are. His first task, for instance, was to make clear that since the law recognized the objector's rights the objector was under a moral obligation to register.

For example: a week or more before registration day, French went to Massachusetts to talk to a group of 70-odd pacifist students from various New England colleges. He found most of them rather confused about the situation and talking rather vaguely about how they would go to jail rather than register.

He spent two days explaining things to them; all registered, as a result, stopped talking about jail, and pre-

Good News for Women

Every day women are finding their headaches, nervousness, cramp-like pains, other symptoms of functional dysmenorrhea due to malnutrition are helped by CARDUI. Main way it usually helps is by increasing appetite and flow of gastric juice; so aiding digestion, helping build up users. Periodic distress is also eased for many who take CARDUI a few days before and during "the time." Women have used CARDUI for more than 50 years!

pared to make their pleas in the regular manner if and when their names were called.

Right now French is conferring with the authorities regarding the kind of work conscientious objectors may be assigned to. He points out that in England a great many objectors are serving on such ultra-perilous assignments as naval mine-sweepers—they refuse to take life, but they do not refuse to risk their own lives.

In addition, various government experts here are considering the sort of work objectors might do in the fields of soil conservation, public health, and so on.

Prior to this year's campaign speeches the greatest wind ever recorded was atop Whiteface Mountain, N. Y.

By GEORGE CHURCHMAN

Monday

The seniors held their weekly meeting with the sponsors, Mrs. McGill, Mrs. Allison, and Paul Hutson president. Songs were sung throughout the program.

All home rooms held programs today with most of them having amateur programs.

The student council met today with its new sponsor, Miss McCance in the council room. Plans were made concerning the big Homecoming Day, November 15 when the Bobcats play Malvern.

Tuesday

The Quill and Scroll initiated Nancy Sue Robbins into its organization today.

The junior classes had three debates on the subject: Resolve—That Franklin Delano Roosevelt should again be elected President of the United States. The affirmatives won two of the debates with one resulting in a tie.

Wednesday

A big and loud pep rally was held this morning. With the football team improving as well as the student body.

The students are thrilled over the two day holidays this week. The A. E. A. met in Little Rock Nov. 7-8 with all Hope teachers attending.

HIGHLIGHTS FROM LATEST BOOKS

Hemingway at His Best in Dramatic Spanish War Tale

American readers have a right to expect much of Ernest Hemingway. They will not be disappointed in his latest novel, "For Whom the Bell Tolls" (Scribner's; \$2.75), an alternate dramatic—in fact, all that one could ask of Hemingway.

There's power in this episode of the Spanish war. In less able hands, it might have palled in the 371 pages he takes to tell it. But the Hemingway skill makes every page a vivid picture, turns his characters into thinking, plotting, loving, hating individuals, and on the whole, answers many questions of the Spanish war.

The story never lags. When Robert Jordan, American serving with the Loyalist forces, penetrates enemy lines to dynamite a bridge, he joins forces with a small guerilla band, hidden in the mountains. He comes to know Pilar, dominant woman, outspoken, harsh, yet warm-hearted; Pablo, her husband, once a leader, now half coward; and Maria, the lovely girl who escaped Fascists.

The love story of Jordan and Maria matches the beauty of the setting the author recreates; it dulls the cutting sharpness of the story of life and sudden death.

Outstanding are Pilar's description of the killing of the Fascists in the first uprising; the courage of Sordo's last stand on the hill-top, and the smothering climax in the dynamiting of the bridge.

Here's a book you won't forget.

"There shall be no night," by Robert Sherwood, has been on Broadway long enough to insure its being one of the season's successes. So it appears now in book form (Scribner's; \$2-).

Sherwood's play is the tragic story of Finland, told through the medium of the Valkonen family. Despite its subject, there is a note of optimism—a hint that perhaps the current debacle is not the end of everything, but rather the prelude to humanity's reawakening.

WE, THE WOMEN

Smart Fresh Learns While He Earns Way Through College

By RUTH MILLETT

Lots of young men today have to work their way through college. The big percentage of them earn room and board by firing furnaces, waiting on tables, scrubbing floors. Nice enough work—but no future in it.

Jim Crider, a freshman at Cornell College, Mount Vernon, Ia., had a better idea.

He's working his way through college by creating co-ed coiffures. Now that young man is combining learning with earning. At the end of his freshman year he'll know more about women than any member of Phi Beta Kappa or the varsity football team.

For he's seeing women where they

Farm Bureau Board Organizes for Another Year

Hope, Arkansas, November 5, 1940.

TO THE FARM BUREAU MEMBERS OF HEMPSTEAD COUNTY: As we are now starting on a new year's work of building up this cooperative movement, it will require a careful effort on the part of all to work unselfishly for the good of humanity.

This, the 4th day of November, we held a very interesting board meeting, a good attendance and seemed to be enjoyed by all present.

We have organized, I think, with a great determination to really do things that will be to the upbuilding of the Farm Bureau.

I hope that each of us will be a committee of one to secure at least one new member.

We have just appointed three good substantial women to our board of directors which will be a great help in carrying on our work in that they can and will look after the interest of our women folks and encourage them to participate more in the work of the organization.

We have increased the board of directors from twelve to twenty-five members, three of this number are colored men who will look after their own people.

You may say why so many on the board? It is said in the multitude of council there is safety. (Proverbs 24:8)

It was unanimously voted to reduce our membership fee to \$2 which we believe will help increase our membership. It is members we need more than dollars and it takes numbers to count when we are represented in state or National legislation.

So let us not be weary in well doing for we shall reap if we faint not.

Best wishes, I am
Sincerely yours,
L. C. Sommerville, President,
Hempstead County Farm Bureau.

Hempstead to Send 3 to L. R.

Sommerville, Cornelius, Garland to State Meet

Hempstead county will have L. C. Sommerville, T. A. Cornelius and Lee H. Garland, executive officers of its Farm Bureau, at the state meeting in Little Rock on November 17 and 18. The state organization has a program which after adopting we will try to follow. At our organization picnic and re-organization Thursday and at the County Board meeting Monday the following have received the support of the Hempstead County Farm Bureau and will be supported at the state meeting:

That gasoline for farm use and school bus use be exempt from state tax.

That Lescaplez seed be supplied to the farmer under the 1941 A. A. A. program as a grant of aid as vetch and phosphate were supplied this year.

That the cotton mattress program be actively expanded as has been removed so that all of our farm families will have satisfactory mattresses and at the same time use a large portion of surplus cotton.

In the past the program of the State and National Farm Bureaus has been with emphasis on rural schools, parity payment, commodity loans, production control, and marketing quotas. This will be continued.

If you as a Farm Bureau member desire some other problem considered please advise your officers at once.

Water Quilt Aid to Sleeping

By HOWARD W. BLAKESLEE

AP Science Editor

NEW YORK—Now that winter is arriving, word of a "hot-weather" water quilt comes along.

You sleep on top instead of under it. Tap water, diffusing slowly between its walls, produces the cooling effect. When the body heats it above the comfort level, valves controlled by a thermostat let additional cold water in and the warm water out.

An official of the firm manufacturing the pad (H. A. Brenner, Therm-O-Rite Products Co., Buffalo) reports it has proven satisfactory at 104 degrees with humidity at 80.

It is necessary only to maintain a skin temperature of about 90 to 92 degrees, to be comfortable, he has found. Persons lose sleep above that point, body temperatures warming bed clothing until it causes perspiring.

Another advantage: You don't have to roll over to find a cool place on the sheets.

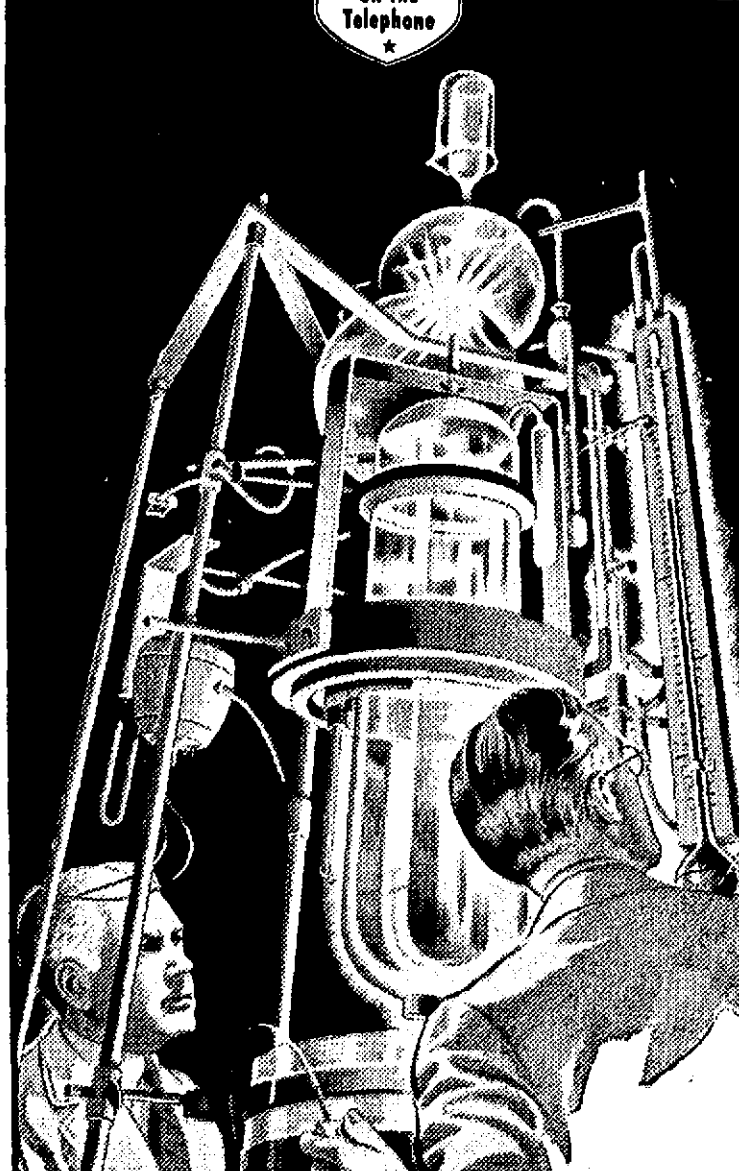

ling to the men on the campus. After all, modern educators are saying, "We must make education practical."

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION for Coughs, Chest Colds, Bronchitis

SCIENCE GUARDS America's telephone service

Men of science watch as fantastic apparatus enacts an unrehearsed drama before their eager eyes . . . nearby, other research experts peer into their microscopes . . . in another room, laboratory technicians put through grueling tests some new and better part for America's telephone system . . .

The scene is the Bell Telephone Laboratories where nearly 5,000 scientists and assistants explore the unknown to build a better telephone service for America. Today their thousands of inventions and developments serve America.

By modern scientific methods huge telephone cables are made and buried underground, guarded from floods, fires, storms, and other disasters. Some of the more important cables are filled with gas, so that the smallest leak in the lead covering sounds an automatic alarm, summoning repair crews.

America's telephone system, guarded by science, is armed to withstand many attacks which a few years ago might have silenced thousands of telephones and isolated many communities.

Today Americans, in any emergency, turn to the telephone, knowing they will receive fast, dependable service.
